Navitas renews partnership with the University of Portsmouth

Global education services provider Navitas Limited (ASX: NVT) is pleased to announce that it has renewed its agreement with the University of Portsmouth to deliver university pathway programs at the International College Portsmouth (ICP) for a further ten years.

ICP offers pre-university (foundation), pathway (first year) and post graduate programs for students seeking to gain admission into the university's academic programs. Since its establishment in 2009, students from 100 countries across the world have enrolled at the College, and more than 2500 have progressed on to programs at the university.

"We are very proud of the reputation that ICP has developed among students, their families and educational advisors for offering quality teaching and an exceptional student experience. I am delighted to extend our long-standing relationship with the University of Portsmouth and look forward to continuing to support its internationalisation ambitions as it continues to rise in ranking and establish itself as a leading university in the UK", said Navitas Group Chief Executive Officer, David Buckingham.

"The University's partnership with ICP has been a great success – both for Navitas and the University; and it has helped many students progress on to good careers. We expect the partnership to go from strength to strength; it is central to the University's longer-term plans and internationalisation ambitions; and we hope to see more students pass through ICP to the University in future years" said University of Portsmouth Vice-Chancellor Professor Graham Galbraith.

Navitas does not make publicly available student enrolment numbers on an individual college basis but notes that it releases student enrolment data on a regular basis.
